Arthur R. Sawchuk

These are extraordinary times for Ukraine and freedom-loving people around the world. Ukraine's territorial sovereignty and continued democratic development are being challenged as never before. In this hour of need the Ukrainian Canadian Congress (UCC) is raising funds across Canada so that it has the financial resources to play its full and proper role in support of Ukraine through its crisis.

Why we need your support!

On December 3rd, the Supreme Court of Ukraine annulled the recent presidential runoff election and called for another vote to be held on December 26, 2004. This was a great milestone victory but the ultimate test will come with the next vote. We must ensure that the upcoming presidential election meets rigorous international standards of fairness and honesty.

To that end, the UCC intends to send 500 or more election observers to Ukraine. The value of Canadian election observers was demonstrated in the preceding round when their findings were admitted as evidence by the Supreme Court of Ukraine.

In addition to sponsoring observers, the UCC is organizing rallies to build awareness across Canada and providing humanitarian assistance to democratic activists in Ukraine.

Please make your contribution to assist UCC in its support of Ukraine!

Together we can make a difference! The moment is now!
