

Dear

I am writing to you as a concerned Ukrainian Canadian constituent of yours.

Recently, the Ukrainian government has taken drastic, anti-democratic and draconian measures to restrict the rights and freedoms of Ukrainians. The introduction of this illegal legislation has escalated an already tense situation and Ukrainian authorities have authorized the use of lethal force against the Ukrainian people resulting in 3 citizens being killed. Canadians are following the events in Ukraine and are appalled by these actions.

Canada must strongly condemn the beating and killing of protestors and journalists. The Government of Ukraine and its leadership are to blame for this escalation. Canada must take decisive action including visa revocation and individual sanctions against those responsible for human rights abuse, corruption and illegal business practices in Ukraine.

The people in Ukraine are in need of Canada's help now. Please do not let Canada sit on the sidelines and wait as the blood of Ukrainians is spilled and their rights are demolished.

People are being killed and jailed. This situation will not resolve itself. The Canadian government cannot wait and see what happens.

Yours truly,
