

We appreciate the opportunity to have the New Democratic Party position known on the issues that Canadian Ukrainians have faced in the past and the current state of affairs in the Ukraine. While I personally aware of some of the injustices faced by Canadian Ukrainians I realize many Canadians have no knowledge about the internment and mistreatment of people of Ukrainian descent.

I have forwarded your email to our Campaign Central to respond as I have not sufficient knowledge of the current state of affairs in the Ukraine as media coverage is so sparse.

Please know that Lynne Thiele and her campaign team take these requests seriously and welcome direct interaction with our residents of Ukrainian descent who wish to speak with us.

Yours truly,

Lawrence Millar
