

# At this difficult time, the Ukrainian Canadian Congress and the UCC Charitable & Educational Trust are working hard to support our community

Some of the projects on which the UCC's dedicated volunteers and staff have been working include:

- ▶ Creating an information page on the UCC's website with up-to-date resources and important information on the COVID-19 crisis, including Ukrainian language materials.
- ▶ Encouraging our community across Canada to donate blood to Canadian Blood Services
- ▶ Supporting our organizations in providing needed assistance to seniors, and vulnerable members of our community
- ▶ Advocating to the Government of Canada for strong and sustained federal support of the non-profit and charitable sector during this time of decreased revenues and difficulties for these vital organizations
- ▶ Providing links and information to our community about online church services
- ▶ Working with Kontakt TV to identify medical experts and professionals to provide important information to our community
- ▶ Working with the Ukrainian Canadian Bar Association to provide legal information and advice to community organizations
- ▶ Re-launching a site with Ukrainian-language teaching and learning at-home resources for parents, educators and children
- ▶ Training for teachers and Ukrainian Schools to work in an online format through Google Classroom organized by UCC's National Ukrainian Education Council
- ▶ Pysanka Campaign – providing resources with ideas on how our community can celebrate our wonderful Easter traditions while also adhering to the directives of public health officials, and staying home, safe and healthy

We thank you for your support and assistance and welcome your ideas on how the UCC can continue to support our community!
