# **CANADA'S ROLE IN THE WAR IN UKRAINE**

**PUBLIC OPINION SURVEY  
CONDUCTED FOR THE UKRAINIAN CANADIAN CONGRESS**

# METHODOLOGY

This survey was conducted with 1,990 residents of Canada between the dates of September 9<sup>th</sup> to 14<sup>th</sup>, 2022. A random sample of panelists were invited to complete the survey from a set of partner panels based on the Lucid exchange platform. These partners are typically double opt-in survey panels, blended to manage out potential skews in the data from a single source.

The margin of error for a comparable probability-based random sample of the same size is +/- 2.2, 19 times out of 20.

The data were weighted according to census data to ensure that the sample matched Canada's population according to age, gender, educational attainment, and region. Totals may not add up to 100 due to rounding.
